

REPAIR REFURB RETROFIT

ROADSHOW

Wednesday 26th February 2020
Holiday Inn Leeds - Garforth, Wakefield Road, Garforth,,
LEEDS LS25 1LH

A one day exhibition with CPD eligible seminars - your chance to meet industry experts and discuss current projects. Completely **FREE** to attend, with lunch and refreshments provided courtesy of the organisers and exhibitors. **FREE** CPD attendance certificate also supplied.

EXHIBITORS INCLUDE:

CPD ELIGIBLE PRESENTATIONS:

8.00am Registration 8.15am Breakfast Rolls

8.30am FLOOR BUILDING SOLUTIONS FOR THE MODERN BUILD

Speaker: Mark Lambourn,
Specification Manager (Midlands and Wales),
BUILDING ADHESIVES LTD

For the successful specification and installation of ceramic and natural stone tiling in a variety of common situations including wet rooms, timber backgrounds and underfloor heating. The seminar identifies potential costly problems, how these arise and practical advice on preventative measures. It highlights British (and European) standards, health & safety issues and identifies the different types of adhesives, grouts and preparation technology available.

9.30am FABRIC FIRST AND AIR TIGHTNESS - ENERGY EFFICIENCY AND MOISTURE CONTROL INCLUDES UPDATES ON BS5534: 2018 & STA REQUIREMENTS FOR BREATHER MEMBRANES

Speaker: Bradley Cameron,
DUPONT PROTECTION SOLUTIONS

An update on meeting both Approved Document C (Moisture) and L (Energy Efficiency) using Tyvek and AirGuard as well as the requirements of BS5534: 2014 - the code of practice for slating and tiling with one proven BBA Certified Membrane System.

10.30am CONTROL AIR LEAKAGE - REFERENCING PART L OF THE BUILDING REGULATIONS BY ICYNENE SPRAY FOAM INSULATION SYSTEMS

Speaker: Paddy Leighton,
ICYNENE

The objective of this seminar is to offer a brief update on recent developments in buildings science, with an emphasis on airtightness in buildings and its importance for energy savings and moisture vapour transmission. The author's Canadian perspective also provides a look at how these issues are handled elsewhere.

11.30am PROBLEM SOLVING SOLUTIONS FOR COATINGS IN NEW BUILD AND RESTORATION

Speaker: Gary Coniam, Managing Director,
OWATROL UK LTD

Being able to find coatings that last, provide protection and solve problems in the built environment is always a challenge. Problems such as how to maintain exterior masonry substrates. How to make the coating last? Paints that work without stabilising solutions, saving time and money. Exterior wood protection that not only decorates but protects the timber. How to get coatings to last when others are failing.

12.15pm Lunch and Exhibition

12.45pm SPECIFYING SECONDARY GLAZING FOR ENHANCING THERMAL PERFORMANCE, ACOUSTICS AND SECURITY OF EXISTING WINDOWS

Speaker: To be advised,
SELECTAGLAZE LTD

This will provide an understanding of how well designed secondary glazing can provide significant improvements to the internal environment of a building through noise insulation, thermal insulation and enhanced security, particularly if the building is listed.

1.45pm INTRODUCTION TO RESIN INJECTION; LEAK SEALING & GROUND STABILISATION

Speaker: Steve Henn, Managing Director,
OXFORD HYDROTECHNICS

This seminar will discuss the use of polyurethane resins to control structure water ingress and stabilise ground. The talk will also cover the uses of resin injection and grouting techniques to carry out specialist and innovative structure repairs.
