CRAWLEY

A one day exhibition with CPD eligible seminars - your chance to meet industry experts and discuss current projects. Completely **FREE** to attend, with lunch and refreshments provided courtesy of the organisers and exhibitors. **FREE** CPD attendance certificate also supplied.

EXHIBITORS INCLUDE:

OXFORD HYDROTECHNICS

DUPONT

Tyvek

ICYNENE
HEALTHIER. QUIETER. MORE ENERGY EFFICIENT™

Cavity Trays

CPD ELIGIBLE PRESENTATIONS:

- 8.00am Registration 8.15am Breakfast rolls
- 8.30am **INTRODUCTION TO RESIN INJECTION; LEAK SEALING & GROUND STABILISATION**
Speaker: Jason Carter,
OXFORD HYDROTECHNICS
- This seminar will discuss the use of polyurethane resins to control structure water ingress and stabilise ground. The talk will also cover the uses of resin injection and grouting techniques to carry out specialist and innovative structure repairs.
- 9.30am **FABRIC FIRST AND AIR TIGHTNESS - ENERGY EFFICIENCY AND MOISTURE CONTROL INCLUDES UPDATES ON BS5534: 2018 & STA REQUIREMENTS FOR BREATHER MEMBRANES**
Speaker: Bradley Cameron,
DUPONT PROTECTION SOLUTIONS
- An update on meeting both Approved Document C (Moisture) and L (Energy Efficiency) using Tyvek and AirGuard as well as the requirements of BS5534: 2014 - the code of practice for slating and tiling with one proven BBA Certified Membrane System.
- 10.30am **SAFE ACCESS ALL AREAS**
Speaker: Carl Sutterby,
ACCESS 360
- Safe Access All Areas is your opportunity to see how to solve those tricky access problems on site, whether through the roof, the ceiling, the walls or the floor. Ever thought about using your natural smoke vent as roof access or to provide natural daylight or even an emergency escape? Do you need fire rated riser doors that can be tiled to match your interior design? Or do you require floor access to a complex configuration of concealed underfloor services? All this and more will be explained. Attend Safe Access All Areas and don't forget your free gift.

- 11.30am **CONTROL AIR LEAKAGE - REFERENCING PART L OF THE BUILDING REGULATIONS BY ICYNENE SPRAY FOAM INSULATION SYSTEM**
Speaker: Paddy Leighton,
ICYNENE
- The objective of this seminar is to offer a brief update on recent developments in buildings science, with an emphasis on airtightness in buildings and its importance for energy savings and moisture vapour transmission. The author's Canadian perspective also provides a look at how these issues are handled elsewhere.
- 12.15pm **Lunch and Exhibition**
- 12.45pm **PROTECTING THE BUILDING ENVELOPE**
Speaker: John Shillabeer, Director,
CAVITY TRAYS LTD
- The longest-established and only UK cavity tray manufacturer awarded European Technical Approval identifies shortfalls in current construction methods and standards and explains how the latest preformed approaches can eliminate problems and improve build details.
- 1.45pm **PRESENTATION TO BE ADVISED**
Speaker: To be advised,
TO BE ADVISED
